

Proof of Temporary Residence

The European Temporary Protection Directive (2001/55 EG) entitles displaced persons from Ukraine to (temporarily) reside in the Netherlands. If you are covered by this Directive, you can obtain your proof of residency at the Immigration and Naturalization Service (IND). The proof can be a sticker in your passport, on a separate piece of paper or a card. With this document you may reside and work in the Netherlands until 4 March 2023. At this moment it is yet unclear how you can show that you are covered by the Directive after 4 March 2023. Once this information is known, it will be posted on the [website of the IND](#)

Have you already collected your proof of residency at the IND? Then no action is required.

Make an appointment

If you are covered by the Directive and have not yet obtained your proof of residency, please make an appointment to collect it as soon as possible.

Documents

You will need the following documents:

- A valid passport, ID-card or identity certificate issued by the Ukrainian Embassy.
- Do you have one or more children without ID who are not registered in your passport? Then you will need their birth certificate.
- If you are a non-Ukrainian national: a Ukrainian residence permit that was valid on 23 February 2022.
- Your citizen service number (BSN). You received this number when you registered with the municipal authority.
- The appointment code. You will be issued this code online when you make the appointment.

At the municipal shelter

Have you picked up your proof of residency? Then please show it to the coordinator of the shelter where you are staying. We will register that you have the proper documents to stay in the Netherlands until 4 March 2023. Also, please show your proof of residency to your employer.
